Crowne Plaza Downtown Denver

Main Line: 303-573-1450
1450 Glenarm Place
Denver, CO 80202

We're Getting Greener!

You'll notice that this page starts out white and gets greener. Crowne Plaza Denver is getting greener too. We've partnered with Waste Farmers®, a Colorado based company dedicated to reducing the solid waste that is sent to landfills and incinerators by helping businesses and municipalities achieve Zero Waste objectives. The Crowne Plaza Denver and Waste Farmers® are initiating the following

- Cardboard
- Organics (Composting)
- Plastic and Metal
- Wood and Pallet
- Batteries and Lighting
- E-Waste
- Glass
- Guestroom Recycling Containers

We're really going the extra mile on this. Waste Farmers® will provide a detailed tracking, reporting and invoicing system so we can see how much we're recycling and reducing greenhouse gasses.

We will be able to tell you how much
The Crowne Plaza Denver recycled and impacted
the environment from the beginning of your
meeting to the end.

In addition to our partnership with Waste Farmers®, we participate in many local business programs focused on energy reduction. These are some of the steps we're taking to reduce our power usage:

- A lighting efficiency retrofit program
- LED exit signs
- A direct digital HVAC Control System in all meeting rooms and public spaces, allowing for better guest comfort and a minimized energy footprint.
